

# Ten Years of Charitable Donation to Olgäle

Nash Technologies celebrates 10th anniversary of donating to the Olgäle Foundation

**Böblingen, May 2nd, 2023. The employees of Nash Technologies have been donating to the Olgäle Foundation in the run-up to Christmas for several years now. The company management then usually doubles the collected contribution. Last year's donation was € 2,000. The Olgäle-Stiftung für das kranke Kind e.V. (Olgäle Foundation for Sick Children), founded in November 1997 under the patronage of SKH Carl Herzog von Württemberg († 2022), aims to help sick children and their parents. The help is primarily directed at the children's hospital Olgahospital, the Olgäle, in Stuttgart.**

"The initiative has been started by our works council and was widely accepted by our employees," says Georg Pielage, CEO of Nash Technologies Germany GmbH, "since then it has been our honor to round up and double the contributions of our employees."
